

REMARKS

Claims 1-14 and 16 remain pending in the present application. Claim 15 has been cancelled. Claims 1 and 2 have been amended. Claim 16 is new. Basis for the amendments and new claims can be found throughout the specification, claims and drawings originally filed.

RESTRICTION REQUIREMENT

The Examiner has required restriction to one of the following inventions under 35 U.S.C. § 121:

- I. Claims 1-14, drawn to a cooling system which uses an ejector pump, classified in class 62, subclass 500.
- II. Claim 15, drawn to a method of cooling, classified in class 62, subclass 118.

Applicant, without traverse, respectfully requests the Examiner to proceed with Invention I defined by Claims 1-14 and new Claim 16. Applicant requests that the non-elected Claims be held in abeyance for further prosecution in future divisional and/or continuation applications.

NEW CLAIM

New Claim 16 is an independent claim which Applicant believes reads on the elected invention. Claims 1-14 have been amended to ultimately depend from Claim 16.

CONCLUSION

It is believed that all of the stated grounds of rejection have been properly traversed, accommodated, or rendered moot. Applicant therefore respectfully requests that the Examiner reconsider and withdraw all presently outstanding rejections. It is believed that a full and complete response has been made to the outstanding Office Action, and as such, the present application is in condition for allowance. Thus, prompt and favorable consideration of this amendment is respectfully requested. If the Examiner believes that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (248) 641-1600.

Respectfully submitted,

Dated: September 28, 2005
